NOTICE 2020-05

Issued: June 4, 2020

Expires: This notice remains in effect until
amended, superseded or rescinded.

Cross Reference:
Mortgagee Letter 2020-17

SUBJECT: Annual Revisions to Base City High Cost Percentage, High Cost Area and
Per Unit Substantial Rehabilitation Threshold for 2020

Maximum mortgage amounts were revised by the Consolidated Appropriations Act, 2008 (Public Law 110-161, approved December 26, 2007) (FY 2008 Appropriations Act). Section 221 of the General Provisions of Title II of Division K of the FY 2008 Appropriations Act revises the statutory exceptions to maximum mortgage amounts for the FHA Multifamily Housing Programs, listed in Section 221 of the FY 2008 Appropriations Act, by (1) substituting 170 percent for the 140 percent exception of any geographical area, and (2) substituting 215 percent for 170 percent as the maximum exception allowed for a specific project. Accordingly, the statutory revision allows the Secretary to grant exceptions to maximum mortgage limits for certain Multifamily Housing Programs by (1) up to 170 percent, (equivalent to a 270 percent multiplier) in geographical areas where cost levels so require or (2) up to 215 percent in High Cost Areas, (equivalent to a 315 percent multiplier) where necessary on a project-by-project basis.

The law does not determine which areas are to be considered “High Cost Areas.” Accordingly, the Office of Multifamily Production has developed a list of High Cost Areas for 2020. The threshold for a High Cost Area has been set for all areas (Special Limit Areas excepted) with a “calculated” High Cost Percentage (HCP) of 322.77 or greater. For these High Cost Areas shaded in the chart below (Special Limit Areas excepted), the maximum mortgage amount may be increased by up to 215 percent, (equivalent to a 315 percent multiplier), where necessary on a project-by-project basis. For the remaining unshaded geographical areas, the maximum mortgage amount may be increased by up to 170 percent (equivalent to a 270 percent multiplier). The 315 percent multiplier is not available for projects in the unshaded geographical areas.

The attached designated Annual Base City High Cost Percentages (HCP) and High Cost Areas are effective January 1, 2020, for FHA multifamily mortgage insurance Firm Commitment applications and for amendments which have not been initially endorsed. The area multiplier is to be used for all localities in the state if only one city has been named in any state. If multiple cities are named in any state, use the multiplier for the city closest to the location of the city named in this Notice.

PER UNIT LIMIT FOR SUBSTANTIAL REHABILITATION FOR CALENDAR YEAR 2020

The 2016 Multifamily Accelerated Processing (MAP) Guide established a base amount of \$15,000 per unit to define substantial rehabilitation for FHA insured loan programs. Section 5.1.D.2 of the MAP guide requires that this base amount be adjusted periodically based on the percentage change published by the Consumer Financial Protection Bureau or other inflation cost index published by HUD. Accordingly, the 2020 base amount per dwelling unit to determine substantial rehabilitation for FHA insured loan programs of \$16,299 has been calculated based on the CPI-U of 2.3 percent increase applied to the previous year's base amount.

SPECIAL LIMIT AREAS

Guam, the U.S. Virgin Islands, and the states of Alaska and Hawaii are Special Limit areas. Care should be taken to ensure that the appropriate limits are used for corresponding programs. The HCP for Special Limit Areas is 405 percent.

PAPERWORK REDUCTION ACT

There are no information collection requirements in this Notice, and therefore the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520) does not apply. In accordance with the Paperwork Reduction Act, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a currently valid OMB control number.
